Dogs

Registration and Microchipping

Dog owners are required by law to ensure dogs over the age of three months are registered with their local government.

To register your dog, you can either visit the City of Rockingham, Administration Building, Civic Boulevard, Rockingham, complete a registration form and pay the relevant fee as detailed below (remembering to supply proof of sterilisation certificate) or registration forms and documentation can be posted to:

PO Box 2142 Rockingham DC WA 6967, or emailed to customer@rockingham.wa.gov.au

Once your dog is registered you will be issued with a registration tag stating your dog's registration number and registration expiry date. The registration period runs from 1 November through to 31 October, irrespective of when you registered your dog during this period. A reminder letter will be sent to you when your dog registration is due for renewal. First registrations can be applied for by emailing the registration form and any accompanying documentation to customer@rockingham.wa.gov.au. Renewals can be paid online via the City's website rockingham.wa.gov.au or by calling Customer Service on 9528 0333.

Registration Period	Sterilised Dog*	Unsterilised Dog
One Year	\$20.00	\$50.00
Three Years	\$42.50	\$120.00
Lifetime	\$100.00	\$250.00

*A registered Veterinary Surgeon's Certificate or statutory declaration must be produced to be eligible for sterilisation rates.

If you have registered your dog under the non-sterilised rate and subsequently have your dog sterilised, you may be eligible for a part refund of the fee. You can find out further details on the City's website or by calling Customer Service on [9528 0333](tel:95280333).

Do pensioners get a discount?

Pensioners receive a 50% discount if a valid State Pensioner Concession Card, or a WA Seniors Card with a Commonwealth Seniors Health Card is presented. These cards must be shown each time the pension concession is claimed.

Not registering or microchipping your animal can result in a fine.

What happens if I move?

The City of Rockingham will accept a current registration from another WA local government if you are moving into the City. Please contact the City on [9528 0333](tel:95280333) to arrange. If you are moving away please contact your new local government to inquire if they will accept your current registration.

Please note that registering your dog is separate to microchipping. Microchipping can be administered by a local vet. All dogs need to be microchipped by 12 weeks.

Remember to always advise the City of transfer of ownership if you give away or sell your pet.

Is your dog a noisy neighbour?

 **AVOID an INFRINGEMENT**

Don't let your dog be a noisy neighbour

Many owners are not aware that their dog barks, as it could be happening when they leave the house to go to work.

The causes of nuisance barking may include:

- lack of training
- separation anxiety
- seeking attention
- insufficient exercise
- feeling threatened
- protecting their territory
- ill health
- unintentional factors (i.e. noise/movement).

Suggested barking control measures may include:

- leaving a radio or tv on
- leaving your dog with a range of toys to keep them occupied
- organising a dog walker
- booking your dog into a dog daycare
- barking control collar
- keeping your dog inside the house.

If a dog owner does not take steps to control the nuisance barking, and the nuisance barking continues, Ranger Services may commence an investigation that could lead to enforcement action being taken against the dog owner.

How to complain about nuisance dog behaviour

If you are concerned about nuisance dog behaviour in your street, the first step may be to alert the dog owner by speaking to them (if you feel safe and comfortable to do so) or by leaving them a courteous note - which could be anonymous.

If the nuisance behaviour continues or the neighbour is unwilling to resolve the problem, lodge a formal complaint with Ranger Services on [9528 0333](tel:95280333). Following the complaint, the dog's owner may be given notice to try and resolve the barking or any antisocial behaviour (such as jumping against boundary fences etc.)

It is important to keep a record of the frequency of when the barking or behaviour occurs, as this can serve as evidence for the complaint. You may be required to provide a statement.

Lead by
example.

 **AVOID an INFRINGEMENT**

Dog Exercise Areas

The following table outlines off-leash dog exercise areas. You must ensure your dog remains under your control (responds on command) at all times.

Baldivis		
Atherstone Parade	Baldivis Reserve/ Football Oval	Chilvers Street
Colreavy Ramble	Highbury Reserve	Palomino Reserve
Steel Tree Reserve	Stillwater Drive	Trusty Parkway
Wise Meander Reserve	Zedora Reserve	Acrasia Reserve (enclosed dog park)
Cooloongup		
Alf Powell Reserve	Breaden Drive Reserve	Deanna Reserve
Glencoe Reserve (Woodbridge Drive)	Grange Reserve	Hinds Court Reserve
Hourglass Reserve	Madison Place Reserve	Paul Garnett Oval
Solquest Park	St Michaels Reserve	
Golden Bay		
George Foster Reserve	Golden Bay Foreshore	Sawley Close Nature Reserve
Tangadee Reserve		
Hillman		
Ennis/Dixon Road Reserve	Gabyon Park	Tarwarri Park

Dog Exercise Areas (continued)

Peron		
Peron Foreshore	Peron Park	
Port Kennedy		
Majestic Close Reserve	Orleans Drive Reserve	St Raphael Reserve
Veterans Memorial Park	St Clair Reserve (enclosed dog park)	
Rockingham		
Anniversary Park	Antilla Place Reserve	Aries Court
Ashford Avenue Reserve	Seabrooke/Barron Reserve	Bayview Reserve (enclosed dog park)
Benjamin Way Reserve	Bungaree Oval	Careeba Park
Casserley/Seabrooke Reserve	Christison Way Reserve	Derwent Park

Cannes Place Reserve	Dress Circle	Galway Gardens Reserve
Indigo Reserve	La Seyne Reserve	Turner Street Reserve
Torbay Mews Reserve	Torcross Reserve	Warnbro Parklands
Warnbro Recreation Centre/Oval		
Waikiki		
Blair Court Reserve	Fairview Reserve	Fantasy Park
Gidgi Way Reserve	Gnangara Oval	Java Park
Lakemba Reserve	Mornington Reserve	Santa Monica Reserve
Seahaven Reserve (enclosed dog park)	Waikiki Foreshore Reserve	

City of Rockingham

Dog beach exercise areas

You **must** clean up after your dog.

These beaches are off-leash areas, however, please ensure your dog is under effective control at all times.

Dogs are strictly prohibited on all other beaches.

Penalty: minimum \$200

The following have been designated as **dog beach exercise areas.**

Rockingham

1. Beach (accessed from Weld Street Beach car park north) to the City's northern boundary with Kwinana (wheelchair beach access from October – May)
2. Beach (accessed from the corner of Esplanade and Hymus Street) continuing west to Point Peron and south to the corner of Boundary Road and Arcadia Drive

Shoalwater

3. Beach (accessed from Arcadia Drive) and ending at the northern end of the Mersey Point car park

Safety Bay

4. Beach (accessed from Bent Street Boat Ramp car park) continuing south-east to the car park just north of Donald Drive

Warnbro/Port Kennedy

5. Beach (accessed from corner of Shelton and Warnbro Beach Road) south to St Malo car park
6. Beach (accessed from the Capella Pass car park) continuing south to Bayeux Vista car park

Secret Harbour

7. Beach stretching 1 km north from Siracusa Court car park

Golden Bay

8. Beach (accessed from the northern point of the Crystaluna Beach car park) extending south for 500 metres

Singleton

9. Beach (accessed from Bight Reefs car park) continuing south 500 metres.

Pick up the poop.

AVOID an INFRINGEMENT

You are always responsible for your dog's actions.

AVOID an INFRINGEMENT

Dog Attacks

A dog attack is defined as:

Any dog that attacks or chases any person or animal causing physical injury or any dog that attacks or chases any person or animal without causing physical injury. Dog attacks are taken very seriously and could result in a costly penalty and/or a court hearing.

The owner or person responsible for the control of the dog that attacks or chases a person or animal and causes physical injury can be liable for a fine of up to **\$10,000**.

If the dog is declared dangerous, and physical injury is caused, a fine of up to **\$20,000** is possible.

Dogs found causing injury or damage may be declared dangerous or destroyed.

Some dogs need space. Not all dogs enjoy being approached, even if your dog is friendly. Always ask before approaching.

Dogs must always be kept on a lead when they are in a public place, unless in a designated off-lead area.

Dogs benefit from socialisation and obedience training from a young age. Remember, even though your dog might be socialised and well behaved, you cannot rely on other dogs to be trained and not show aggression towards you or your dog. Always approach with caution.

If you are involved in a dog attack, the following information should be obtained and established before leaving the scene (if possible):

- the dog owner's name and address, a detailed description of person(s), and dog(s) involved
- a description of the attacking dog (breed, colour, name, sex)
- any witness details (names and contact information)
- any supporting evidence to identify the attacking dog's owner i.e. vehicle registration, street address.

The victim should keep all documentation relating to the attack (medical reports or expenses, vet reports or expenses, photographs of injuries).

Make contact with Ranger Services on 9528 0333 at the earliest opportunity, especially if the attacking dog and owner details are not known. The sooner the report, the greater chance of identification.

If possible, make notes to jog your memory when you are giving the information to the investigating ranger.

Never let your dog run up to other people or dogs. Remember, just because your dog is friendly does not mean that all other dogs are. Some dogs may be nervous, reactive, fearful, in training, or owned by people who want to be left alone.

Dangerous Dogs

Restricted Breeds

Certain breeds of dogs have been identified by the Commonwealth Government as being particularly aggressive. They have been banned from import into Australia and each state and territory introduced legislation to protect the community from these breeds. The Department of Local Government, Sport and Cultural Industries (dlgsc.wa.gov.au) has more information and useful fact sheets outlining further details on the keeping of restricted breeds.

Declared Dangerous Dogs

Under the Dog Act 1976, local governments are able to declare a dog dangerous based on its behaviour.

Reasons that a dog may be declared dangerous include the dog:

- 🐾 causing injury or damage by an attack, or chasing a person or animal
- 🐾 repeatedly showing a tendency to attack or chase a person, animal or vehicle, or
- 🐾 threatening to attack.

For further information and your obligations in keeping a declared dangerous dog visit dlgsc.wa.gov.au or call Ranger Services on 9528 0333.

If you have no recall over your dog (recall means the dog will return to you immediately when called) keep them on a leash.

Be a responsible dog owner

- 🐾 microchip your dog and ensure registration details are up-to-date
- 🐾 ensure your dog wears a collar and identification tag
- 🐾 provide fresh food and water every day
- 🐾 provide access to clean comfortable bedding, warm in the winter and cool in the summer
- 🐾 wash and treat for fleas regularly
- 🐾 ensure your dog is up-to-date with vet checks and vaccination
- 🐾 ensure your dog does not cause a nuisance to others by excessively barking, howling or jumping on fences

- ensure your property is secure so that your dog does not have the opportunity to wander
- pick up after your dog when out walking, the City may impose fines if you do not. Always carry bags with you, or make use of dog poo bags freely available at most parks and reserves across the City. Remember, regardless of whether bags are provided at the location, you are responsible for picking up after your dog.

Dogs need regular exercise and companionship.

- owners are encouraged to enrol their dogs into obedience school to learn good behaviour and socialisation
- it is an offence to keep more than two dogs on a residential property, or more than three dogs on a rural property, without prior approval from the City of Rockingham. Please contact Ranger Services on 9528 0333 for further information.

Some dogs need space

**My dog
is friendly!**

**Please call
your dog!**

**My dog
will react**

**My dog is
scared of
other dogs**

**My dog is
not social**

Tips to help frightened pets cope during thunderstorms and fireworks:

- 🐾 be prepared by bringing all pets inside or confine them to a small secure area well before the thunderstorm or fireworks begin
- 🐾 leave the television or radio on to disguise the noise
- 🐾 don't fuss over your pet during the thunderstorm or fireworks as this will only acknowledge the fearful behaviour or that something strange is happening
- 🐾 try to act normal around your pets and continue with your regular activities during the thunderstorm or fireworks
- 🐾 make sure your details are up to date on your pet's microchip and he/she is wearing a collar and identification tag just in case they escape and become lost or injured.

Playgrounds are not for pooches.

 **AVOID an INFRINGEMENT**

Cats

Cat registration

Cats over the age of six months must be registered with the local government. Cat owners need to provide proof that their cat has been sterilised and microchipped.

The registration period runs from 1 November to 31 October irrespective of when you registered your cat.

To register your cat, you can either visit the City of Rockingham, Administration Building, Civic Boulevard, Rockingham, complete a registration form and pay the relevant fee as detailed below (remembering to supply proof of sterilisation and microchipping)

or

registration forms and documentation can be posted to PO Box 2142 Rockingham DC WA 6967, or emailed to customer@rockingham.wa.gov.au

Registration Period	Fee
One Year	\$20.00
Three Years	\$42.50
Lifetime	\$100.00

Do pensioners get a discount?

Pensioners receive a 50% discount if a valid State Pensioner Concession Card, or a WA Seniors Card with a Commonwealth Seniors Health Card presented. These cards must be shown each time the pension concession is claimed.

Adopting a cat or kitten

Always choose adoption over obtaining a 'free' cat or kitten. Breeding without a license is illegal.

Adopted cats will be desexed, microchipped, vet checked and de-wormed.

Local rescue groups are listed at the back of this guide. Remember to always advise the City of transfer of ownership if you give away or sell your pet.

Sterilisation

Ensure your cat is sterilised. Sterilised cats are healthier, live longer and are less of a nuisance to the community (sterilised male cats wander less and their urine does not have a high hormonal odour, so does not attract other cats).

Uncontrolled cats mating or fighting at night is a major source of noise complaints to local governments and can be very annoying for other residents.

The importance of sterilising your cat

Did you know that cats are able to get pregnant from the age of four months and could give birth to up to 180 kittens in their lifetime? To avoid this, you should sterilise your cat sooner rather than later.

Identification

- 🐾 stretch collars with an identification disc are suitable for most cats
- 🐾 microchipping is a safe and effective form of identification for cats and is mandatory in WA
- 🐾 many lost or injured cats are not reunited with their owners, simply because they have no identification
- 🐾 cats (like dogs) are only required to be kept for 72 hours/three days if not displaying any owner identification details or seven days if the owner has been identified
- 🐾 cats are also required to wear collars with identification and registration tags.

Nuisance cats

There are currently no laws that prohibit domestic cats from roaming.

There are various methods to deter nuisance cats from your property, such as purchasing commercially available cat repellent or ultra sonic devices. In many cases the best solution to wandering or nuisance domesticated cats is a polite conversation (if you feel comfortable and safe to do so) with the owner to express your concerns.

If you continue to have problems with nuisance cats, contact Ranger Services on **9528 0333**.

Take Five

Here are five ways you can better care for the health and welfare of your pet cat and ensure that you are adhering to the law:

1. sterilising your cat (sooner rather than later)
2. identify your cat as a pet through microchipping and having it wear a collar
3. never dump unwanted cats or kittens
4. prevent your cat from roaming
5. provide opportunities for your cat to engage in play.

Benefits of keeping your cat indoors

Where is your cat at the moment? If you don't know, then it could be harming native wildlife, crossing a busy street or intruding on a neighbour's property.

While there are currently no cat confinement laws in the City of Rockingham, you and your feline companion can benefit from your cat being kept indoors.

Cat confinement reduces the risks of:

- injury or death from vehicles
- getting trapped
- diseases and parasites and infectious diseases
- killing wildlife
- getting lost or stolen
- poisoning (intentionally or accidentally)
- injury or death from other cats, dogs or other predators (snakes etc)
- negatively impacting your neighbours.

Training your cat to stay indoors

Contrary to popular belief, cats do not need to roam. Provided their basic needs are met, cats can enjoy longer and healthier lives when kept indoors at night or even 24 hours a day.

You can train your cat to accept confinement by:

- skipping its morning feed and calling it in at night to be fed - don't feed your cat until it comes inside - it will learn to be home by dusk
- keep your cat inside until morning
- ensure your cat has a cosy and well-ventilated sleeping area with food, water and a clean litter tray. It will adapt to night time confinement within a few days.

If you are confining your cat for a longer period of time, it is necessary to enrich their environment. This will prevent them from becoming bored and developing behavioural problems. Cats can still explore the outdoors through an escape-proof cat enclosure.

Cats can enjoy a wonderful life confined to their owners property, especially if trained to stay indoors from a kitten. Key considerations to keeping your cat healthy and happy at home:

- consider building a cat enclosure or outdoor aviary as the cat can get the sensory benefits of being outside (such as the smells and sunshine) in a way that is safe for them and for wildlife
- provide plenty of cat climbing spaces, such as ladders, hiding places made from boxes, scratching posts and levels to keep your cat entertained and challenged
- cats enjoy the sunshine, so be sure to provide a sunny spot for them to bask in, along with shade when it gets too hot
- keep litter trays clean and away from food and water
- always get your kitten sterilised to make sure they are safe from unwanted pregnancies
- exercise your cat with daily play and interaction.

Cats are safest at home.
Keep them enclosed.

Animal Management Facility (Pound)

Pets are impounded at the Animal Management Facility for a number of different reasons. Some are found wandering, some are handed in by members of the public and others are surrendered by their owners.

The City aims to reunite as many lost pets with their owners as possible.

You can help by ensuring that your pet is microchipped and registered.

Make sure you keep your information up to date and make a lost animal report with the City if your pet goes missing.

My dog or cat is in the Animal Management Facility. What can I do?

Call the City on [9528 0333](tel:95280333). There may be additional information that you need to be aware of prior to collection, e.g. the dog/cat may need a microchip, or documents may be required prior to collection.

The City will confirm the impounded animal details.

The animal can only be collected by the [registered owner](#) unless prior arrangements for a delegate to attend have been agreed on with the Animal Management Facility Officer.

The City's Animal Management Facility is located at the City's Operations Centre, 2 Hurrell Way, Rockingham (open by appointment for collection only).

What are the rehoming requirements?

In accordance with The Dog Act 1976 and the Cat Act 2011, only identifiable dogs/cats are required to be kept for seven days. Dogs/cats without any ID (unidentifiable) are only required to be kept for 72 hours. This may be extended at the discretion of the City.

What are the impound fees?

Dogs and cats impounded are subject to an impound fee, pet registration (if applicable) and daily sustenance charge. Please check the City's website rockingham.wa.gov.au for current charges.

Wildlife

There are a variety of agencies and individuals who can assist with distressed and injured animals:

- Seabirds injured or entangled in fishing nets and lines should be reported to Western Australian Seabird Rescue on [6102 8464](tel:61028464) (between the hours of 8am and 6pm, 7 days a week. Outside of these hours please call Wildcare on [9474 9055](tel:94749055)).
- Snake removal from a private property can be arranged by contacting a qualified snake handler. (rockingham.wa.gov.au) Remember snakes are protected by laws in all states and territories of Australia, and may not be killed unless they threaten life.

- If safe to handle, residents can take injured wildlife to a vet.
- Dead kangaroos can be removed by phoning the City on [9528 0333](tel:95280333).
- Residents requiring assistance or advice on wildlife should contact Wildcare on [9474 9055](tel:94749055).

Residents are urged to look out for roadside signs indicating prolific wildlife and drive with caution in these areas, especially at night when wildlife is more active. Nocturnal animals such as kangaroos, wallabies and possums tend to be most active around dusk, throughout the night, at first light, or after rain.

Bees

Bees are permitted on residential property as long as the bees do not cause a nuisance.

Residents that would like to keep bees should ensure all hives are enclosed and located far from other buildings, footpaths and public places. There should also be a water source available at all times.

Residents can be directed to remove bees that are considered to be creating a nuisance.

Selling of honey is not permitted without a valid Food Registration.

Further details can be downloaded from the City's website or by calling Health Services on 9528 0333.

Please note all persons keeping bees are required to register with Agriculture WA. Further registration information can be found at agric.wa.gov.au

Keeping Large Animals

A large animal is defined as a cow (including ox, calf or bull), horse (including ass, mule, donkey or pony), pig, sheep, goat, camel, llama, emu, ostrich, or similar.

Large animals are to be kept on rural or special rural properties only and require permission from the City's Planning Department on [9528 0333](tel:9528 0333).

An owner of a large animal shall not allow it to approach within 15 metres of a dwelling without an exemption. An exemption can be applied for via the City's Health Services by calling [9528 0333](tel:9528 0333), who will determine any potential nuisance or health risk.

No large animals (as defined above) are to be kept on residential properties at any time (this includes all pigs).

All large animals kept on rural or special rural properties must have appropriate fencing as is specified under Schedule 3 of the City of Rockingham's Fencing Local Law 2000, by installing a post-and-strainer constructed fence or a rural electric fence to ensure their retention.

Keeping Poultry

Poultry is only allowed to be kept on rural or special rural properties, unless you have an exemption. Exemptions can be applied for through Health Services on 9528 0333 who will consider the nuisance and health risks involved.

Roosters are only allowed to be kept on rural or special rural properties.

Up to 20 pigeons or miscellaneous birds are allowed to be kept on any premises.

The City may grant an exemption on application, to an affiliated person to keep up to 150 pigeons in a properly constructed loft.

A building licence may be required for the erection of an aviary or chicken coop (call Building Services on 9528 0333).

Evacuating pets and animals in an emergency

Ensure your pets or animals have **clear identification** including name, contact details and current registration tags attached to their collar. Livestock must be clearly branded or earmarked and birds should have leg bands attached.

Plan ahead and consider **where you will evacuate** your pet to in the event of an emergency or natural disaster. Provide yourself with more than one option. Ensure you have details on hand, including opening hours and the number of trips required to evacuate your animals.

Plan to move your animals.

Be ready to secure your animals, wear and use safety equipment and have in place animal carriers, secure floats and trailers. Ensure locks are secured and prepare yourself with additional transportation supplies such as ropes, leashes, hooks, tyres, batteries, torches, and basic tools.

Prepare emergency supply packs which may include items such as food, toys, blankets, medication, collars, leads, harnesses, saddles, photographs, contact details of local vets and rangers, pet carriers and temporary fencing materials.

Regularly check the items for wear and tear and check the expiration dates.

Know the route you need to take.

Plan for alternative escape routes; know your exit plans. Consider that there could be possible road closures in an emergency. Check for updates on mainroads.wa.gov.au

Prepare your property.

Ensure sufficient firebreaks are maintained all year and boundary fences are secure, intact, and regularly checked. Trim trees, clean gutters regularly and remove any hazards that are close to power lines or food stock. Regularly practice your emergency evacuation plan.

Keep informed.

Check emergency.wa.gov.au for all emergency updates and alerts.

For further information on animal welfare in emergencies visit the Department of Fire and Emergency Services dfes.wa.gov.au/safetyinformation/animalwelfare
