

## City of Rockingham - Comet Bay Ward - Councillor

### SHAW, Murray

Greetings.

I first moved to the Rockingham area in 1981. I grew up here and spent many years surfing Secret Harbour. Almost all the important people in my life are still living here. I've travelled the world and seen the good and the bad. Along with my work in immigration around the nation and overseas I have developed both a national and local perspective on many issues.

My vision for our future includes:

An increase in programs concerning law and order including working with local residents and government agencies to act against general crime, ice and hard drug dealers, and hoons.

To further promote the City of Rockingham as a holiday and entertainment centre to in order to provide business opportunities and employment opportunities particular for youth.

I want to work to make a Better Rockingham.

Better Safety,

Better Opportunities,

Better Life For Me, You, and Our Families.

Thank You.
