

## City of Rockingham - Rockingham Ward - Councillor

**SAMMELS, Barry**

As your current Councillor and Mayor, I seek your support to be re-elected. Law, order and public safety are my top priorities and I strongly advocated for the recent operational and equipment upgrades to the City's CCTV system, costing \$2.7 million. I also supported the introduction of the Smart Watch security patrols and our Litterbusters rapid response litter team. As Chair of the Australian Coastal Councils Association, I advocate on behalf of all Australian Councils to the Federal and State Governments, particularly regarding sea-level rise and extreme weather events resulting from our changing climate. I strongly support the Rockingham Beach Foreshore redevelopment, an estimated \$40 million project that will create 150 jobs in the first phase of what will be a 6-8 year project. With my experience, knowledge and passion for Rockingham, and with your support, we can continue Rockingham's development as a safe, prosperous and great City.
