

## City of Rockingham - Rockingham Ward - Councillor

### GEORGE, Malcolm

I am a strong advocate for the Point Peron Mangles Bay Marina in Rockingham to be built as soon as possible as it will create massive investment in infrastructure as a five-star marine, tourist, retail, recreational and residential development. The Marina will be family friendly and create many new employment opportunities for locals. There needs to be CCTV security cameras, and good quality lighting in educational, recreational, sporting and tourist facilities in the area to create a safe environment for the benefit of everyone to use. Waikiki Beach needs to be restored to its former pristine condition and I will be advocating for this restoration project to be done as soon as possible. With a background in Finance, Real Estate and studying law at University as well as being entrenched in the local community, I believe as a councillor I can have a positive impact for the residents of Rockingham!
