

Stepping Out in Rockingham

Delphinus Trail

Delphinus Trail

Distance: 5.25 km / 65,262 steps
Time: 60 - 70 minutes
Start: Underpass, Rockingham Shopping Centre
Surface: Concrete / Crushed limestone

Parking at Coles end of the Rockingham Shopping Centre, this trail is accessible via the underpass, (allowing you to cross Read Street safely), keep following the shared path west (straight). As you progress further towards Bungaree Lake you will see artworks in the pavement and birds in the light posts, depicting the flora and fauna of the area. Don't forget to observe the public art drain covers reflecting the organic shapes found in the environment. Keep following the path that leads you behind the Stan Twight Reserve, ending at the Lake Richmond observation platform. The concrete footpath now meets the crushed limestone surface that you can follow clockwise around Lake Richmond. A newly constructed boardwalk allows a closer view of the thrombolites. Continue along the crushed limestone surface, over the bridge and back to the concrete footpath. Follow the concrete footpath east, taking you back to the Rockingham Shopping Centre.
