

Hey there,

Rockingham/Safety Bay Ward! It's time to make a conscious choice for our community. Vote #1 Adelle Hemingway for council and let's build a stronger, safer, and more connected place we proudly call home.

Over my 13 years of residency in Rockingham, I've developed a deep appreciation for our community. I'm driven by a genuine desire to support and give back. My primary motivation is clear: to create a community that benefits everyone.

Safety is fundamental, and I believe in the power of connection for well-being and mental health. I understand the social and economic challenges impacting our locals. It's time to balance where rates are spent across all suburbs and not overlook Port Kennedy. As a HR professional, I'll bring a measured approach in decision making.

- Encourage new projects that create local jobs, focus on the safety of the elderly, and drive urgently needed solutions for parking issues around the foreshore.
- Revitalising Murdoch Campus and driving the Garden Island Highway infrastructure are top priorities.
- Manageable rates for families facing rising costs.
- Advocate for funding an Arts Entertainment center.
- Lobbying state government to take over the maintenance of our boat ramps.
- As an active member of a local yoga charity, I am all about inclusivity and well-being for all, promoting accessibility, affordability and connectivity.
- Let's boost tourism and create exciting recreational opportunities.
- Open up the doors of opportunity by enhancing training and employment opportunities for our younger residents to shine bright!

So, let's make a positive change together by focusing on positive strategic solutions. Let's be transparent and manage any unethical behaviors by building a strong culture in council, focusing on positive outcomes. Let's build a vibrant, safe, and connected community that we deserve. If elected, be assured I will represent YOU, the incredible people who call this city home, by being your ethical voice in council.
