We need **better outcomes for families** and people living in Baldivis **amid this cost of living crisis!** By keeping **rates down** we can lower the pressure on household budgets. With **fiscal responsibility** we therefore **lower the cost of living.**

We need better roads, including **Action on Baldivis Rd congestion!** My plan for this is to add better roads whilst also pressuring the state government to place traffic lights where Baldivis Rd and Mundijong Kulijia meet. **This will significantly decrease congestion and traffic accidents.**

We need **more support** for our **Community associations, Charities and Churches.** This will drive down anti-social behaviour ensuring a **safer community for everyone!**

**Baldivis is my home.** I'm studying Law at the University of Western Australia and I'm active within the Baldivis community. Being young means I'm energetic and I'll be a breathe of fresh air for the city of Rockingham!

I'm ready to fight for a better Baldivis! But even better, I have a long term plan for Baldivis!
