

Incursion for Schools

Waste Education Program 2024

- Recycling
- Avoidance
- Recovery

As part of its Waste Education Program, the City of Rockingham offers community groups an interactive presentation with a virtual tour of Millar Road Landfill and Recycling Facility to increase understanding on better practices in waste management. The sessions are interactive and illustrative, providing attendees with updated information, skills and educational materials on recycling, waste avoidance and resource recovery.

Morning incursion tour – Wednesdays only

Time	Activity
9am	Waste Education Officer arrives at your facility to set up
9.30am	Interactive presentation
10.30am	Environmental Education Officer concludes the session and packs up

Cost: Free of charge

Educator: City of Rockingham Environmental Education Officer

Supervision: All children must be supervised by a teacher or a responsible adult.

Maximum number of attendees is 35 per session.

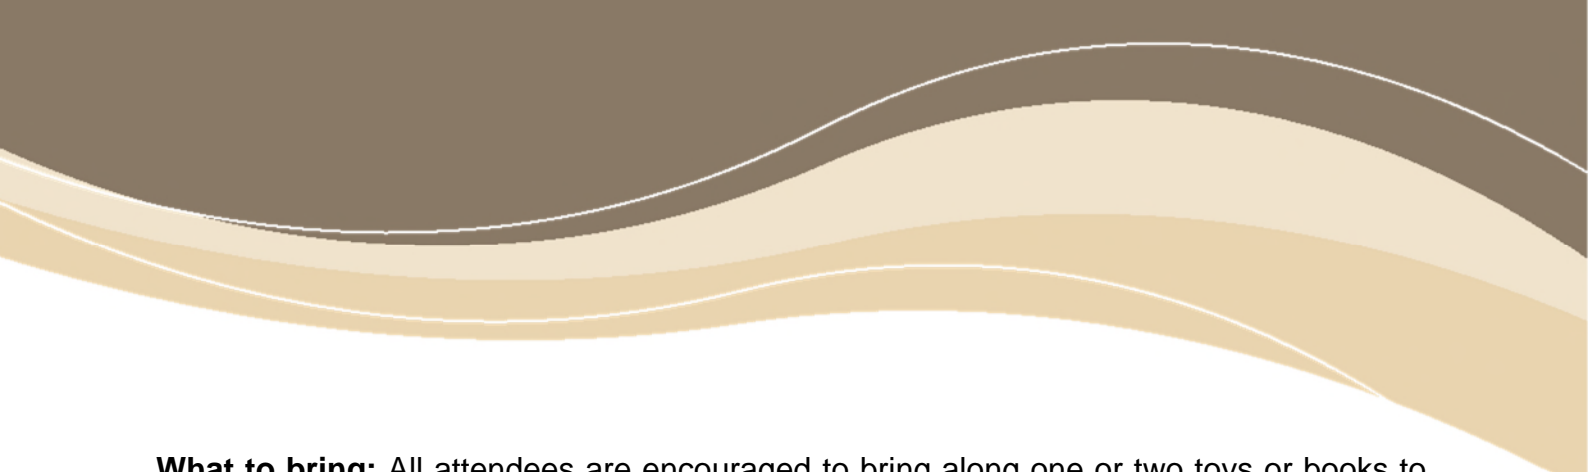

The City of Rockingham provides a dynamic range of environmental events and education for individuals, schools and the community.

What to bring: All attendees are encouraged to bring along one or two toys or books to be used at the end of the Zero Waste session Swap-Mart, to be organised by the responsible teacher. The Swap Mart intends to encourage students to realise how one person's *old* can be another person's *new*, increasing awareness on the circular economy and leading children towards a waste free life.

Set up: Please have a screen available for presentation.
